

# Big

## Modular Table System

Big is a modular table system for multi-purpose use. It is available in standard desk, counter and bar heights. The tabletop can take extensive length and width on just four legs. Big is suitable for a broad range of settings such as workstations, conference rooms, canteens and public areas. The design of the table is fully customisable in size, shape, materials and colours. The tabletop can also be adjusted in production to fit a power connection unit of your choice.

Designed by **De Vorm**

### Product overview

Big Round is an alternative to classical rectangular tables. It is available in standard desk, counter and bar heights. The modularity of the system enables you to create robust tables on just three legs. Big Round is suitable for a broad range of settings such as shared workstations, conference rooms, canteens and public areas. The design of the table is fully customisable in size, shape, materials and colours. The tabletop can also be adjusted in production to fit a power connection unit of your choice.
